

MCC International NV is committed to a leading company in the field of industrial chemical cleanings. The purpose of MCC International NV is to pursuing projects with wide public awareness, in which the welfare, environment, sustainability, transparency, ethics, quality and integrity are the basis of its values and standards.

The core objective is very simple: MCC International NV strives to be responsible and respectful to deal with people, the environment and society, with as minimum standard compliance with national, European and international legislation.

The starting points for this are:

Well-being at work

Industrial safety is our ultimate goal. MCC int. strives prevent (human) damage through a proactive approach in our prevention policy.

We aim to improve the well-being of every person. To this end, use is made of thorough risk analysis, efficient protective equipment and a custom training policy.

Our starting point is that people without distinction, are valuable and that they be given the opportunity to develop themselves personally. We run a just and social policy, ensure healthy working conditions in which investing in people and ensure that the right person in the right place works.

Material damage

MCC int. ensures a correct application of materials and machines. Internal training contributes to sharpen the awareness of employees concerning respectful dealing with both their own material as that of third parties.

Environment

The care for the environment is a regular feature in the policy of MCC Int. Controlling the environmental aspects is integrated into day-to-day operations. We carefully manage our use of natural resources like water, energy, commodities, paper. We practice conscious waste management to restrict harmful influences on the environment.

Quality

Our good name is determined by the quality of our work, the way we run, and the respectful way of dealing with the client. In the quality policy of our company is guaranteed how we do that. Crisp, clear and verifiable agreements relating to quality, safety, environmental care, welfare, specifications and price are a fixture within the relationship with the client. We handle complaints, if any, carefully. The principle is to achieve a fair agreement with client.

Business integrity and transparency

We do business in openness at all times in compliance with integrity, honesty and fairness within the limits of commercial confidentiality and international use.

In addition, as a company, we believe in the importance of trust, openness, teamwork, professionalism and professional pride. We expect that our employees work together, professionally, and honest, inside and outside the company. Our employees determine how we value our customers, suppliers and mutual cooperation.

We do not do business with parties that leads to offense and/or circumvention of laws and regulations, and other social and/or proprietary standards and values.

Innovation

We constantly search for new opportunities for the best and safest solutions to our client and our own employees by combine creativity and knowledge of our employees with new technology and/or application. In doing so, we support innovative solutions to reduce occupational risks and to increase efficiency.

Compliance with laws and regulations

MCC Int. undertakes to respect the applicable laws and regulations when performing its tasks. In addition, we anticipate on future adjustments or new laws and regulations through internal follow-up and/or through information from external partners.

Internal and external controls

MCC Int. is in the possession of the following certificates: NEN-EN-ISO 9001, NEN-EN-ISO 14001, VCA**.

We conform to internal and external independent audits to the effective functioning and compliance with our codes of conduct and procedures. We constantly work to improve our performance.

Consequences

Failure to comply with the rules of conduct by the worker is subject to sanctions.
